

People for a beautiful world

Vidya Sagar Devabhaktuni

(www.skgsangha.org)

SKG Sangha

- NGO, Not for profit
- > 3 decades of committed work
- Working in 12 nations and 8 states in India
- Installed > 125,000 family size biodigesters and many large size units

Technologies

- All kinds of organic material
- Low Tech and down to earth
- Units with locally available material
- Can be maintained by a person with minimum education

Aim of the projects

- Managed by local people
- Managed by low educated people
- Simple processes
- Units with locally available materials
- Effective units with low cost

Projects taken up

- Domestic biogas project creation in Egypt for the government of Egypt
- Domestic biogas project creation for Mali
- Waterless toilet material treatment unit in Madagascar
- Night soil based unit in Ghana
- Kitchen/ community hall/ canteen waste material treatment units
- Food processing units waste treatment units
- Municipal solid waste management units

Collaborate with Nepal

- We want to take up joint Research and development with Nepal biogas implementing agencies
- Already achieved the model and design needed for food and other waste digestion as a joint venture with Kingdom Bioenergy and Foundation SKG Sangha, UK
- Can train the workforce of Nepal on building large size fixed dome digesters using Brick masonry.

Thank you

People for a beautiful world
